Eligibility Requirements | Career Outlook | Fees & Funding* | How to Apply

Eligibility

Bachelor's degree (or equivalent / higher)
This program requires a bachelor's degree or an equivalent recognized academic title, preferably in a life science-related area. If you are unsure about your eligibility, please reach out to our admission staff.

Required Documents

- A passport size photo (head and shoulders only)
- Copy of identity proof e.g. a copy of passport or any other government-issued identity card
- Copy of bachelor's degree or equivalent (degree/higher national diploma etc.)
- Copy of academic transcripts/marks sheets from the bachelor's degree
  Additional requirements if opting for the dual degree pathway:
- Copy of High School Diploma / Secondary School Certificate
- CV

Language Proficiency

This program is taught in English. Therefore, you should be comfortable in using English as a language of communication (reading, writing and speaking). If you have taken an English language test in the last two years, that is good to have. If not, you can explore a waiver for the English language test.
English proficiency test is waived for applicants who are:

- Native English speakers.
- Graduates of English-medium institutions.
- Have at least 2 years of work experience in an English-speaking organization.

Entry Requirements | Career Outlook | Fees & Funding* | How to Apply

The MSc in Circular Economy and Sustainability prepare you to work as a professional in the circular economy in a variety of jobs with a focus on sustainability. Graduates of this program are employed in industry, consultancy, regulatory agencies, and governmental and non- governmental organizations as environmental specialists, sustainability specialists, experts in urban planning, environmental managers, and researchers in research institutes and international development organizations.
